

Recombinant human PIP protein

Catalog Number: ATGP2308

PRODUCT INFORMATION

Expression system

E.coli

Domain

29-146aa

UniProt No.

P12273

NCBI Accession No.

NP_002643

Alternative Names

Prolactin-inducible protein, GCDFP-15, GCDFP15, GPIP4

PRODUCT SPECIFICATION

Molecular Weight

15.9 kDa (141aa)

Concentration

1mg/ml (determined by Bradford assay)

Formulation

Liquid in. 20mM Tris-HCl buffer (pH 8.0) containing 0.4M urea, 10% glycerol

Purity

> 90% by SDS-PAGE

Tag

His-Tag

Application

SDS-PAGE, Denatured

Storage Condition

Can be stored at +2C to +8C for 1 week. For long term storage, aliquot and store at -20C to -80C. Avoid repeated freezing and thawing cycles.

BACKGROUND

Description

Prolactin-inducible protein, also known as PIP, is a major protein component of benign breast gross cysts. It is a known marker of breast cancer, as it is found in approximately 50% of all breast cancer specimens. It is expressed in exocrine glands and, in pathologic conditions, in breast cysts and breast cancers exhibiting apocrine features. PIP and prostate specific antigen are co-expressed in androgen receptor-positive breast tumours. Recombinant human PIP protein, fused to His-tag at N-terminus, was expressed in E. coli.
