

Recombinant human Thrombopoietin protein

Catalog Number: ATGP3970

PRODUCT INFORMATION

Expression system

HEK293

Domain

22-353aa

UniProt No.

P40225

NCBI Accession No.

NP_000451.1

Alternative Names

THPO, MGDF, MKCSF, ML, MPLLG, THCYT1, TPO, thrombopoietin isoform 1 precursor, C-mpl ligand, Megakaryocyte colony-stimulating factor, Megakaryocyte growth and development factor, Myeloproliferative leukemia virus oncogene ligand, ATGP3057

PRODUCT SPECIFICATION

Molecular Weight

36.8kDa (343aa)

Concentration

0.25mg/ml (determined by Absorbance at 280nm)

Formulation

Liquid. In Phosphate-Buffered Saline (pH 7.4) containing 10% glycerol

Purity

> 90% by SDS-PAGE

Endotoxin level

< 1 EU per 1ug of protein (determined by LAL method)

Biological Activity

Measured in a cell proliferation assay using MO7e human megakaryocytic leukemic cells. The ED50 range ≤ 10 ng/ml.

Tag

His-Tag

Application

SDS-PAGE, Bioactivity

Storage Condition

Can be stored at +2C to +8C for 1 week. For long term storage, aliquot and store at -20C to -80C. Avoid repeated freezing and thawing cycles.

Recombinant human Thrombopoietin protein

Catalog Number: ATGP3970

BACKGROUND

Description

Thrombopoietin, also known as megakaryocyte growth and development factor (MGDF), is a member of EPO/TPO family. It is produced in the liver by both parenchymal cells and sinusoidal endothelial cells, as well as in the kidney by proximal convoluted tubule cells. It acts as a key regulator of megakaryocytopoiesis and thrombopoiesis that leads to platelet production. Also, this protein is the ligand for MLP/C_MPL, the product of myeloproliferative leukemia virus oncogene. Thrombopoietin, like EPO, plays a role in brain development. It promotes apoptosis of newly generated neurons, an effect counteracted by EPO and neurotrophins. Recombinant human Thrombopoietin fused to His-tag at C-terminus, was expressed in HEK293 cell and purified by using conventional chromatography techniques.

DATA

SDS-PAGE

3ug by SDS-PAGE under reducing condition and visualized by coomassie blue stain

Biological Activity

Recombinant human Thrombopoietin protein

Catalog Number: ATGP3970

Human Thrombopoietin stimulates cell proliferation of the MO7e human megakaryocytic leukemic cells. The ED50 range ≤ 10 ng/ml.
