

Mouse Anti-Human Transthyretin

TTR / Transthyretin Mouse anti-Human Monoclonal (Unconjugated) (9G6) Antibody, (50 µl)
CODE: 119-13070

Antigen Information

Gene Symbol:	TTR
Target Species:	Human

Product Specifications

Size:	50 ul
-------	-------

Antibody Specifications

Host Species:	Mouse
Clonality:	Monoclonal
Isotype:	IgG1,k

Target Information

Synonyms

TTR, ATTR, CTS1, CTS, HsT2651, PALB, Prealbumin, TBPA, Transthyretin, Carpal tunnel syndrome 1, Prealbumin, amyloidosis type I, Thyroxine-binding prealbumin

Source

Immunogen	Protein purified from Human plasma.
Purification	Purified
Gene Symbol	TTR
SwissProt Accession #	P02766
NCBI Gene ID	7276

Format

Formulation	HEPES with 0.15M NaCl, 0.01% BSA, 0.03% sodium azide, and glycerol
Antibody Modification	Unconjugated

Specificity

Species Detected Human

Recommended Applications

IHC-P (1:100), IP, WB (1:2000)

Storage

+4°C or -20°C, Avoid repeated freezing and thawing.

Antigen Information

Gene Symbol: TTR

Target Species: Human

Product Specifications

Size: 50 ul

Antibody Specifications

Host Species: Mouse

Clonality: Monoclonal

Isotype: IgG1,k
