

# GLIPR1 / RTVP1 Antibody, Rabbit PAb, Antigen Affinity Purified

Sino Biological  
Biological Solution Specialist

Catalog Number: 103118-T08

## GENERAL INFORMATION

|                     |                                                                                                                                                                                                                                                                                                                                                                                                     |
|---------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Immunogen:</b>   | A synthetic peptide corresponding to the center region of the Human GLIPR1 / RTVP1                                                                                                                                                                                                                                                                                                                  |
| <b>Preparation</b>  | Produced in rabbits immunized with a synthetic peptide corresponding to the center region of the Human GLIPR1 / RTVP1, and purified by antigen affinity chromatography.                                                                                                                                                                                                                             |
| <b>Ig Type:</b>     | Rabbit IgG                                                                                                                                                                                                                                                                                                                                                                                          |
| <b>Specificity:</b> | Human GLIPR1 / RTVP1                                                                                                                                                                                                                                                                                                                                                                                |
| <b>Formulation:</b> | 0.2 µm filtered solution in PBS                                                                                                                                                                                                                                                                                                                                                                     |
| <b>Storage:</b>     | This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free.<br>Sodium azide is recommended to avoid contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles. |

## APPLICATIONS

|                      |       |
|----------------------|-------|
| <b>Applications:</b> | IHC-P |
|----------------------|-------|

## RECOMMENDED CONCENTRATION

|              |                     |
|--------------|---------------------|
| <b>IHC-P</b> | IHC-P: 1:500-1:2000 |
|--------------|---------------------|

**Please Note: Optimal concentrations/dilutions should be determined by the end user.**
