

Vitronectin / VTN Antibody, Mouse MAb

Sino Biological
Biological Solution Specialist

Catalog Number: 10424-MM03

GENERAL INFORMATION	
Immunogen:	Recombinant Human Vitronectin / VTN Protein (Catalog#10424-H07H)
Preparation	This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with purified, recombinant Human Vitronectin / VTN (rh Vitronectin / VTN; Catalog#10424-H07H; NP_000629.3; Asp20-Leu478). The IgG fraction of the cell culture supernatant was purified by Protein A affinity chromatography.
Clone ID:	03
Specificity:	Human Vitronectin / VTN
Formulation:	0.2 µm filtered solution in PBS
Storage:	This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Sodium azide is recommended to avoid contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles.
APPLICATIONS	
Applications:	ELISA(Det)
RECOMMENDED CONCENTRATION	
Sandwich ELISA (Detection Ab)	ELISA(Det): 1:1000-1:10000 This antibody will detect Human Vitronectin / VTN in ELISA pair set (Catalog: # SEK10424). In a sandwich ELISA, it can be used as detection antibody when paired with (Catalog: # 10424-MM11).

Please Note: Optimal concentrations/dilutions should be determined by the end user.
