GENERAL INFORMATION

Immunogen:	Recombinant Human PDGFRB / CD140b Protein (Catalog#10514-H08H)
Reagents:	FITC-conjugated Rabbit monoclonal antibody
Preparation	This antibody was obtained from a rabbit immunized with purified, recombinant Human PDGFRB / CD140b (rh PDGFRB / CD140b; Catalog#10514-H08H; NP_002600.1; Met1-Lys531) and conjugated with FITC under optimum conditions, the unreacted FITC was removed.
Ig Type:	Rabbit IgG
Clone ID:	206
Specificity:	Human PDGFRB / CD140b
Concentration:	5 µl/Test, 0.1 mg/ml
Formulation:	PBS solution containing 0.5% BSA and 0.09% sodium azide
Storage:	This antibody can be stored at 2°C-8°C for twelve months without detectable loss of activity. Protected from prolonged exposure to light. Do not freeze ! Sodium azide is toxic to cells and should be disposed of properly. Flush with large volumes of water during disposal.
Alternative Names:	PDGFRB

APPLICATIONS

Applications:	FCM

Flow cytometric analysis of Human PDGFR β (CD140b) expression on MG63 cells. Cells were stained with FITC-conjugated anti-Human PDGFR β (CD140b). The fluorescence histograms were derived from gated events with the forward and side light-scatter characteristics of intact cells.

Flow cytometry was performed on a BD FACSCalibur flow cytometry system. Please refer to www.sinobiological.com/Flow-Cytometry-FACS-Protocols-a-750.html for technical protocols.
