Biological Solution Specialist

Catalog Number: 105996-T08

## GENERAL INFORMATION

|              |                                                                                                                                                                                                                                                                                                                                                                                                     |
|--------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:   | A synthetic peptide corresponding to the N-terminus of the Mouse IL1A/IL-1A/IL-1F1                                                                                                                                                                                                                                                                                                                  |
| Preparation  | Produced in rabbits immunized with a synthetic peptide corresponding to the N-terminus of the Mouse IL1A/IL-1A/IL-1F1, and purified by antigen affinity chromatography.                                                                                                                                                                                                                             |
| Ig Type:     | Rabbit IgG                                                                                                                                                                                                                                                                                                                                                                                          |
| Specificity: | Mouse IL1A/IL-1A/IL-1F1                                                                                                                                                                                                                                                                                                                                                                             |
| Formulation: | 0.2 µm filtered solution in PBS                                                                                                                                                                                                                                                                                                                                                                     |
| Storage:     | This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free.<br>Sodium azide is recommended to avoid contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles. |

## APPLICATIONS

|               |       |
|---------------|-------|
| Applications: | IHC-P |
|---------------|-------|

## RECOMMENDED CONCENTRATION

|       |                     |
|-------|---------------------|
| IHC-P | IHC-P: 1:200-1:1000 |
|-------|---------------------|

***Please Note: Optimal concentrations/dilutions should be determined by the end user.***
