## C5a Antibody, Mouse MAb

| GENERAL INFORMATION              |  |
|----------------------------------|--|
| Immunogen:                       | Recombinant Human C5a Protein (Catalog#10604-HNAE)   |
| Preparation                      | This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with purified, recombinant Human C5a (rh C5a; Catalog#10604-HNAE; CO5_HUMAN; Leu679-Arg751). The IgG fraction of the cell culture supernatant was purified by Protein A affinity chromatography. |
| Clone ID:                        | 32   |
| Specificity:                     | Human C5a  |
| Formulation:                     | 0.2 µm filtered solution in PBS  |
| Storage:                         | This antibody can be stored at $2^{\circ}\text{C}-8^{\circ}\text{C}$ for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at $-20^{\circ}\text{C}$ to $-80^{\circ}\text{C}$ . Preservative-Free. Avoid repeated freeze-thaw cycles.                      |
| APPLICATIONS                     |  |
| Applications:                    | ELISA(Det)   |
| RECOMMENDED CONCENTRATION        |  |
| Sandwich ELISA<br>(Detection Ab) | ELISA(Det): 1:1000-1:10000  This antibody will detect Human C5a in ELISA pair set (Catalog: # SEKA10604). In a sandwich ELISA, it can be used as detection antibody when paired with (Catalog: # 10604-MM08).  |

Please Note: Optimal concentrations/dilutions should be determined by the end user.
