

# PGAM2 Antibody, Rabbit PAb, Antigen Affinity Purified

Sino Biological  
Biological Solution Specialist

Catalog Number: 202956-T08

## GENERAL INFORMATION

|                     |                                                                                                                                                                                                                                 |
|---------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Immunogen:</b>   | E. coli-derived Human PGAM2 fragment                                                                                                                                                                                            |
| <b>Preparation</b>  | Produced in rabbits immunized with E. coli-derived Human PGAM2 fragment, and purified by antigen affinity chromatography.                                                                                                       |
| <b>Ig Type:</b>     | Rabbit IgG                                                                                                                                                                                                                      |
| <b>Specificity:</b> | Human, Cynomolgus                                                                                                                                                                                                               |
|                     | Reacts with<br>Cynomolgus                                                                                                                                                                                                       |
| <b>Formulation:</b> | PBS, pH7.0 with 0.03% Proclin300                                                                                                                                                                                                |
| <b>Storage:</b>     | This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Avoid repeated freeze-thaw cycles. |

## APPLICATIONS

|                      |       |
|----------------------|-------|
| <b>Applications:</b> | IHC-P |
|----------------------|-------|

## RECOMMENDED CONCENTRATION

|              |                   |
|--------------|-------------------|
| <b>IHC-P</b> | IHC-P: 1:50-1:200 |
|--------------|-------------------|

**Please Note:** Optimal concentrations/dilutions should be determined by the end user.
