| Immunogen:                | Recombinant Mouse IL-28B / IFN-lambda-3 Protein (Catalog#51306-M08H)                                                                                                                                                                                                                                                                                                                                |
| Preparation               | This antibody was obtained from a rabbit immunized with purified, recombinant Mouse IL-28B / IFN-lambda-3 (rM IL-28B / IFN-lambda-3; Catalog#51306-M08H; NP_796370.1; Met1-Val193).                                                                                                                                                                                                                 |
| Ig Type:                  | Rabbit IgG                                                                                                                                                                                                                                                                                                                                                                                          |
| Clone ID:                 | 001                                                                                                                                                                                                                                                                                                                                                                                                 |
| Specificity:              | Mouse IL-28B / IFN-lambda-3                                                                                                                                                                                                                                                                                                                                                                         |
| Formulation:              | 0.2 µm filtered solution in PBS                                                                                                                                                                                                                                                                                                                                                                     |
| Storage:                  | This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free.<br>Sodium azide is recommended to avoid contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles. |
| APPLICATIONS              |                                                                                                                                                                                                                                                                                                                                                                                                     |
| Applications:             | ELISA                                                                                                                                                                                                                                                                                                                                                                                               |
| RECOMMENDED CONCENTRATION |                                                                                                                                                                                                                                                                                                                                                                                                     |
| ELISA                     | ELISA: 1:5000-1:10000<br>This antibody can be used at 1:5000-1:10000 with the appropriate secondary reagents to detect Mouse IL-28B / IFN-lambda-3.                                                                                                                                                                                                                                                 |
