| GENERAL INFORMATION       |                                                                                                                                                                                                                                                                                                                                                                                                     |
|---------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                | Recombinant Rat IL13RA2 / IL13R protein (Catalog#80204-R08H)                                                                                                                                                                                                                                                                                                                                        |
| Preparation               | Produced in rabbits immunized with purified, recombinant Rat IL13RA2 / IL13R (rR IL13RA2 / IL13R; Catalog#80204-R08H; Q8VHK6; Met1-Lys336). IL13RA2 / IL13R specific IgG was purified by Rat IL13RA2 / IL13R affinity chromatography.                                                                                                                                                               |
| Ig Type:                  | Rabbit IgG                                                                                                                                                                                                                                                                                                                                                                                          |
| Specificity:              | Rat IL13RA2 / IL13R                                                                                                                                                                                                                                                                                                                                                                                 |
| Formulation:              | 0.2 µm filtered solution in PBS with 5% trehalose                                                                                                                                                                                                                                                                                                                                                   |
| Storage:                  | This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free.<br>Sodium azide is recommended to avoid contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles. |
| APPLICATIONS              |                                                                                                                                                                                                                                                                                                                                                                                                     |
| Applications:             | ELISA,IHC-P                                                                                                                                                                                                                                                                                                                                                                                         |
| RECOMMENDED CONCENTRATION |                                                                                                                                                                                                                                                                                                                                                                                                     |
| IHC-P                     | IHC-P: 1:500-1:2000                                                                                                                                                                                                                                                                                                                                                                                 |
| ELISA                     | ELISA: 1:5000-1:10000<br>This antibody can be used at 1:5000-1:10000 with the appropriate secondary reagents to detect Rat IL13RA2 / IL13R.                                                                                                                                                                                                                                                         |

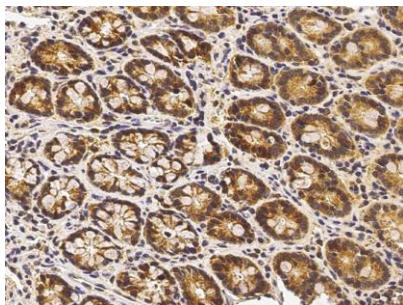

**Please Note: Optimal concentrations/dilutions should be determined by the end user.**

# IL13RA2 / IL13R Antibody, Rabbit PAb, Antigen Affinity Purified

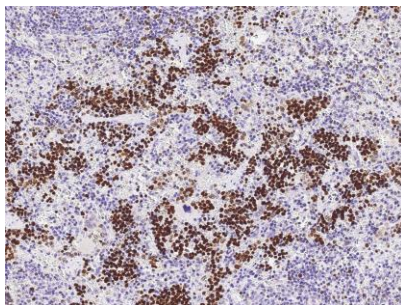

Sino Biological  
Biological Solution Specialist

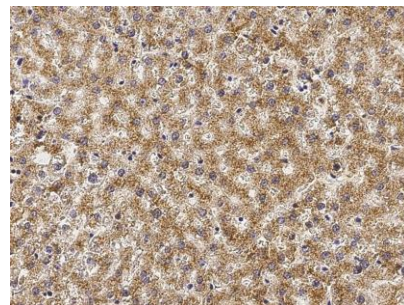

Catalog Number: 80204-RP02

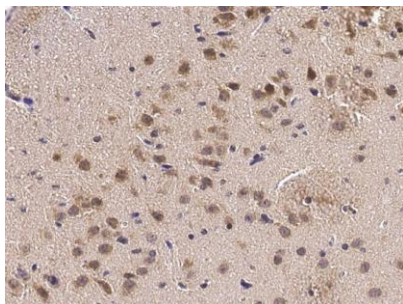

Immunohistochemical staining of rat IL13RA2 in rat stomach with rabbit polyclonal antibody (1:1000, formalin-fixed paraffin embedded sections).

Immunohistochemical staining of rat IL13RA2 in rat spleen with rabbit polyclonal antibody (1:1000, formalin-fixed paraffin embedded sections).

Immunohistochemical staining of rat IL13RA2 in rat liver with rabbit polyclonal antibody (1:1000, formalin-fixed paraffin embedded sections).

Immunohistochemical staining of rat IL13RA2 in rat brain with rabbit polyclonal antibody (1:1000, formalin-fixed paraffin embedded sections).
