

Human GNAZ Gene cDNA clone plasmid

Sino Biological Inc.

Biological Solution Specialist

Catalog Number: HG13373-G

General Information

Gene :	guanine nucleotide binding protein (G protein), α
Official Symbol :	GNAZ
Synonym :	GNAZ
Source :	Human
cDNA Size:	1068bp
RefSeq :	BC078163
Plasmid:	pGEM-GNAZ

Description

Lot : Please refer to the label on the tube

Sequence Description :

Identical with the Gene Bank Ref. ID sequence except for the point mutations: 404 C/A resulting in the amino acid Pro substitution by Gln and 309 T/C not causing the amino acid variation.

Vector :

pGEM-T

Shipping carrier :

Each tube contains approximately 10 μ g of lyophilized plasmid.

Storage :

The lyophilized plasmid can be stored at ambient temperature for three months.

Quality control :

The plasmid is confirmed by full-length sequencing with primers in the sequencing primer list.

Sequencing primer list :

M13-47 : 5' GCCAGGGTTTCCCAGTCACGAC 3'

RV-M : 5' GAGCGGATAACAATTCACACAGG 3'

Other M13 primers can also be used as sequencing primers.

Plasmid Resuspension protocol

1. Centrifuge at $5,000 \times g$ for 5 min.
2. Carefully open the tube and add 100 μ l of sterile water to dissolve the DNA.
3. Close the tube and incubate for 10 minutes at room temperature.
4. Briefly vortex the tube and then do a quick spin to concentrate the liquid at the bottom. Speed is less than $5000 \times g$.
5. Store the plasmid at -20°C .

The plasmid is ready for:

- Restriction enzyme digestion
- PCR amplification
- *E. coli* transformation
- DNA sequencing

E. coli strains for transformation (recommended but not limited)

Most commercially available competent cells are appropriate for the plasmid, e.g. TOP10, DH5 α and TOP10F'.

Biological Solution Specialist

Catalog Number: HG13373-G

Vector Information

The pGEM-T vector is a high-efficiency TA cloning vector which contains multiple cloning sites as shown below. The pGEM-T vector is 3.0kb in size and contains the ampicin resistance gene for selection. The coding sequence was inserted by TA cloning.

Physical Map of pGEM-T :

pGEM-T Vector

Manufactured By Sino Biological Inc., FOR RESEARCH USE ONLY. NOT FOR USE IN HUMANS.
