

Product Introduction

Sinobiological ELISA Magnetic Separator was designed for Enzyme Linked Immunosorbent Assay(ELISA).It contains 24 magnets, each of the magnets draw magnetic beads in 4 wells.

The ELISA magnetic separator was composed by 24 pieces of N35 magnets and a PMMA plate. We design the substrate as ELISA microplate, so it can suit the microplate perfectly. When you put the microplate on the magnetic separator, magnetic beads in microplate tube can be washed without losing of your targets. This magnetic separator can be used as ELISA chemiluminescence ELISA and so on.

Manufactured By Sino Biological Inc., FOR RESEARCH USE ONLY. NOT FOR USE IN HUMANS.
