

# E-Cadherin / CDH1 / E-cad / CD324 Antibody, Rabbit PAb

Sino Biological  
Biological Solution Specialist

Catalog Number: 10204-RP01

| GENERAL INFORMATION       |                                                                                                                                                                                                                                                    |
|---------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                | Recombinant Human CDH1 protein (Catalog#10204-H08H)                                                                                                                                                                                                |
| Preparation               | Produced in rabbits immunized with purified, recombinant Human Cadherin-1 / CDH1 (rh Cadherin-1; Catalog#10204-H08H; NP_004351.1; Met 1-Ile 707). Total IgG was purified by Protein A affinity chromatography.                                     |
| Ig Type:                  | Rabbit IgG                                                                                                                                                                                                                                         |
| Specificity:              | Human Cadherin-1 / CDH1 / CD324                                                                                                                                                                                                                    |
| Formulation:              | 0.2 µm filtered solution in PBS                                                                                                                                                                                                                    |
| Storage:                  | This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Avoid repeated freeze-thaw cycles. |
| APPLICATIONS              |                                                                                                                                                                                                                                                    |
| Applications:             | ELISA                                                                                                                                                                                                                                              |
| RECOMMENDED CONCENTRATION |                                                                                                                                                                                                                                                    |
| ELISA                     | ELISA: 1:1000-1:2000<br>This antibody can be used at 1:1000-1:2000 with the appropriate secondary reagents to detect Human Cadherin-1.                                                                                                             |

**Please Note: Optimal concentrations/dilutions should be determined by the end user.**
