LDLR / LDL Receptor Antibody, Mouse MAb

GENERAL INFORMATION	
Immunogen:	Recombinant Human LDLR protein (Catalog#10231-H08H)
Preparation	This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with purified, recombinant Human LDLR / LDL Receptor (rh LDLR; Catalog#10231-H08H; NP_000518.1; Met 1-Arg 788). The IgG fraction of the cell culture supernatant was purified by Protein A affinity chromatography.
Ig Type:	Mouse IgG1
Clone ID:	7G11G11E6
Specificity:	Human LDLR / LDL Receptor
	No cross-reactivity with Human cell lysate (293 cell line) in ELISA
Formulation:	0.2 µm filtered solution in PBS
Storage:	This antibody can be stored at $2^{\circ}\text{C}-8^{\circ}\text{C}$ for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C . Preservative-Free. Avoid repeated freeze-thaw cycles.
APPLICATIONS	
Applications:	ELISA
RECOMMENDED CONCENTRATION	
ELISA	ELISA: 1:1000-1:2000 This antibody can be used at 1:1000-1:2000 with the appropriate secondary reagents to detect Human LDLR.

Please Note: Optimal concentrations/dilutions should be determined by the end user.
