CD40L / CD154 / TNFSF5 Antibody, Mouse MAb

Immunogen: Recombinant Human CD40L / CD154 / TNFSF5 protein (Catalog#10239-H08E) This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with purified, recombinant Human CD40L / CD154 / TNFSF5 (rh CD40L / CD154 / TNFSF5; Catalog#10239-H08E; NP_000065.1; Glu 108-Leu 261). The IgG fraction of the cell culture supernatant was purified by Protein A affinity chromatography. Ig Type:	GENERAL INFORMATION	
Preparation obtained from a mouse immunized with purified, recombinant Human CD40L / CD154 / TNFSF5 (rh CD40L / CD154 / TNFSF5; Catalog#10239-H08E; NP_000065.1; Glu 108-Leu 261). The IgG fraction of the cell culture supernatant was purified by Protein A affinity chromatography. Ig Type: Mouse IgG1 Clone ID: 04 Specificity: Human CD40L / CD154 / TNFSF5 No cross-reactivity in ELISA with Human TNFRSF8 Human CD40 Mouse CD27 E.coli cell lysate Formulation: 0.2 μm filtered solution in PBS This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Avoid repeated freeze-thaw cycles. APPLICATIONS Applications: ELISA RECOMMENDED CONCENTRATION ELISA: 1:1000-1:2000 This antibody can be used at 1:1000-1:2000 with the appropriate secondary reagents to detect Human	Immunogen:	Recombinant Human CD40L / CD154 / TNFSF5 protein (Catalog#10239-H08E)
