

CD10 / Neprilysin / MME Antibody, Mouse MAb

Sino Biological
Biological Solution Specialist

Catalog Number: 10805-MM05

GENERAL INFORMATION	
Immunogen:	Recombinant Human CD10 / Neprilysin / MME protein (Catalog#10805-H07H)
Preparation	This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with purified, recombinant Human CD10 / Neprilysin / MME (rh CD10 / Neprilysin / MME; Catalog#10805-H07H; NP_000893.2; Tyr 52-Trp 750). The IgG fraction of the cell culture supernatant was purified by Protein A affinity chromatography.
Ig Type:	Mouse IgG2a
Clone ID:	05
Specificity:	Human CD10 / Neprilysin / MME
	No cross-reactivity in ELISA with Human cell lysate (293 cell line)
Formulation:	0.2 µm filtered solution in PBS
Storage:	This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Sodium azide is recommended to avoid contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles.
APPLICATIONS	
Applications:	ELISA
RECOMMENDED CONCENTRATION	
ELISA	ELISA: 1:1000-1:2000 This antibody can be used at 1:1000-1:2000 with the appropriate secondary reagents to detect Human MME.

Please Note: Optimal concentrations/dilutions should be determined by the end user.
