

# FGFR2 / CD332 Antibody, Rabbit PAb, Antigen Affinity Purified

Sino Biological  
Biological Solution Specialist

Catalog Number: 10824-RP02

| GENERAL INFORMATION       |                                                                                                                                                                                                                                                    |
|---------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                | Recombinant Human FGFR2 protein (Catalog#10824-H08H)                                                                                                                                                                                               |
| Preparation               | Produced in rabbits immunized with purified, recombinant Human FGFR2 extracellular domain (rh FGFR2; Catalog#10824-H08H; NP_000132.3; Met 1-Glu 377). FGFR2 specific IgG was purified by human FGFR2 affinity chromatography.                      |
| Ig Type:                  | Rabbit IgG                                                                                                                                                                                                                                         |
| Specificity:              | Human FGFR2 / CD332 / BEK                                                                                                                                                                                                                          |
| Formulation:              | 0.2 µm filtered solution in PBS                                                                                                                                                                                                                    |
| Storage:                  | This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Avoid repeated freeze-thaw cycles. |
| APPLICATIONS              |                                                                                                                                                                                                                                                    |
| Applications:             | ELISA                                                                                                                                                                                                                                              |
| RECOMMENDED CONCENTRATION |                                                                                                                                                                                                                                                    |
| ELISA                     | ELISA: 1:1000-1:2000<br>This antibody can be used at 1:1000-1:2000 with the appropriate secondary reagents to detect Human FGFR2.                                                                                                                  |

**Please Note: Optimal concentrations/dilutions should be determined by the end user.**
