

RELA / Transcription factor p65 / NFkB p65 Antibody, Mouse MAb

Sino Biological
Biological Solution Specialist

Catalog Number: 12054-MM03

GENERAL INFORMATION	
Immunogen:	Recombinant Human RELA / Transcription factor p65 protein (Catalog#12054-H09E)
Preparation	This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with purified, recombinant Human RELA / Transcription factor p65 (rh RELA / Transcription factor p65; Catalog#12054-H09E; Q04206-1; Met 1-Tyr 306). The IgG fraction of the cell culture supernatant was purified by Protein A affinity chromatography.
Ig Type:	Mouse IgG2b
Clone ID:	03
Specificity:	Human RELA / Transcription factor p65
	No cross-reactivity in ELISA with E.coli cell lysate
Formulation:	0.2 µm filtered solution in PBS
Storage:	This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Sodium azide is recommended to avoid contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles.
APPLICATIONS	
Applications:	ELISA
RECOMMENDED CONCENTRATION	
ELISA	ELISA: 1:1000-1:2000 This antibody can be used at 1:1000-1:2000 with the appropriate secondary reagents to detect Human RELA.

Please Note: Optimal concentrations/dilutions should be determined by the end user.
