

# CHI3L2 / YKL-39 Antibody, Rabbit PAb, Antigen Affinity Purified

Sino Biological  
Biological Solution Specialist

Catalog Number: 12162-RP02

| GENERAL INFORMATION       |                                                                                                                                                                                                                                                    |
|---------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Immunogen:                | Recombinant Human YKL-39 / CHI3L2 protein (Catalog#12162-H08H)                                                                                                                                                                                     |
| Preparation               | Produced in rabbits immunized with purified, recombinant Human YKL-39 / CHI3L2 (rh YKL-39 / CHI3L2; Catalog#12162-H08H; NP_003991.2; Met 1-Leu 390). YKL-39 / CHI3L2 specific IgG was purified by Human YKL-39 / CHI3L2 affinity chromatography.   |
| Ig Type:                  | Rabbit IgG                                                                                                                                                                                                                                         |
| Specificity:              | Human YKL-39 / CHI3L2                                                                                                                                                                                                                              |
| Formulation:              | 0.2 µm filtered solution in PBS                                                                                                                                                                                                                    |
| Storage:                  | This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Avoid repeated freeze-thaw cycles. |
| APPLICATIONS              |                                                                                                                                                                                                                                                    |
| Applications:             | ELISA                                                                                                                                                                                                                                              |
| RECOMMENDED CONCENTRATION |                                                                                                                                                                                                                                                    |
| ELISA                     | ELISA: 1:5000-1:10000<br>This antibody can be used at 1:5000-1:10000 with the appropriate secondary reagents to detect Human CHI3L2.                                                                                                               |

**Please Note: Optimal concentrations/dilutions should be determined by the end user.**
