GENERAL INFORMATION

Immunogen:	Recombinant Plasmodium falciparum (strain 3D7) LDH / L-lactate dehydrogenase Protein (Catalog#40303-N08E)
Preparation	Produced in rabbits immunized with purified, recombinant Plasmodium falciparum (strain 3D7) LDH / L-lactate dehydrogenase (Catalog#40303-N08E; XP_001349989.1; Met1-Ala316). Plasmodium falciparum (strain 3D7) LDH / L-lactate dehydrogenase specific IgG was purified by Plasmodium falciparum (strain 3D7) LDH / L-lactate dehydrogenase affinity chromatography.
Ig Type:	Rabbit IgG
Specificity:	Plasmodium falciparum (strain 3D7) LDH / L-lactate dehydrogenase
Formulation:	0.2 µm filtered solution in PBS
Storage:	This antibody can be stored at 2°C-8°C for one month without detectable loss of activity. Antibody products are stable for twelve months from date of receipt when stored at -20°C to -80°C. Preservative-Free. Sodium azide is recommended to avoid contamination (final concentration 0.05%-0.1%). It is toxic to cells and should be disposed of properly. Avoid repeated freeze-thaw cycles.

APPLICATIONS

Applications:	ELISA
	(Antibody's applications have not been validated with corresponding viruses. Optimal concentrations/dilutions should be determined by the end user.)

RECOMMENDED CONCENTRATION

ELISA	ELISA: 1:5000-1:10000 This antibody can be used at 1:5000-1:10000 with the appropriate secondary reagents to detect Plasmodium falciparum (strain 3D7) LDH / L-lactate dehydrogenase.
