

## Anti-K2C3 antibody

---

|                           |                                                                                                                        |
|---------------------------|------------------------------------------------------------------------------------------------------------------------|
| <b>Description</b>        | Unconjugated Rabbit polyclonal to K2C3                                                                                 |
| <b>Model</b>              | STJ190355                                                                                                              |
| <b>Host</b>               | Rabbit                                                                                                                 |
| <b>Reactivity</b>         | Human                                                                                                                  |
| <b>Applications</b>       | ELISA, WB                                                                                                              |
| <b>Immunogen</b>          | Synthesized peptide derived from human K2C3 protein.                                                                   |
| <b>Immunogen Region</b>   | 230-310aa                                                                                                              |
| <b>Gene ID</b>            | <a href="#">3850</a>                                                                                                   |
| <b>Gene Symbol</b>        | <a href="#">KRT3</a>                                                                                                   |
| <b>Dilution range</b>     | WB 1:500-2000 ELISA 1:5000-20000                                                                                       |
| <b>Specificity</b>        | K2C3 Polyclonal Antibody detects endogenous levels of protein.                                                         |
| <b>Tissue Specificity</b> | Cornea specific.                                                                                                       |
| <b>Purification</b>       | K2C3 antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |
| <b>Note</b>               | For Research Use Only (RUO).                                                                                           |
| <b>Protein Name</b>       | Keratin, type II cytoskeletal 3 65 kDa cytokeratin Cytokeratin-3 CK-3<br>Keratin-3 K3 Type-II keratin Kb3              |
| <b>Molecular Weight</b>   | 69 kDa                                                                                                                 |
| <b>Clonality</b>          | Polyclonal                                                                                                             |

|                            |                                                                                                           |
|----------------------------|-----------------------------------------------------------------------------------------------------------|
| <b>Conjugation</b>         | Unconjugated                                                                                              |
| <b>Isotype</b>             | IgG                                                                                                       |
| <b>Formulation</b>         | Liquid form in PBS containing 50% glycerol, and 0.02% sodium azide.                                       |
| <b>Concentration</b>       | 1 mg/ml                                                                                                   |
| <b>Storage Instruction</b> | Store at -20°C, and avoid repeat freeze-thaw cycles.                                                      |
| <b>Database Links</b>      | <a href="#">HGNC:6440</a> <a href="#">OMIM:122100</a>                                                     |
| <b>Alternative Names</b>   | Keratin, type II cytoskeletal 3 65 kDa cytokeratin Cytokeratin-3 CK-3<br>Keratin-3 K3 Type-II keratin Kb3 |
