

Anti-AOFB antibody

Description Unconjugated Rabbit polyclonal to AOFB

Model STJ192527

Host Rabbit

Reactivity Human, Mouse, Rat

Applications ELISA, WB

Immunogen Synthesized peptide derived from human AOFB protein.

Immunogen Region Internal

Gene ID 4129

Gene Symbol MAOB

Dilution range WB 1:500-2000 ELISA 1:5000-20000

Specificity AOFB Polyclonal Antibody detects endogenous levels of protein.

Purification AOFB antibody was affinity-purified from rabbit antiserum by affinity-

chromatography using epitope-specific immunogen.

Note For Research Use Only (RUO).

Protein Name Amine oxidase flavin-containing B Monoamine oxidase type B MAO-B

Molecular Weight 57 kDa

Clonality Polyclonal

Conjugation Unconjugated

Isotype IgG

Formulation Liquid form in PBS containing 50% glycerol, and 0.02% sodium azide.

Concentration 1 mg/ml

Storage Instruction Store at -20°C, and avoid repeat freeze-thaw cycles.

Database Links HGNC:6834OMIM:309860

Alternative Names Amine oxidase flavin-containing B Monoamine oxidase type B MAO-B

Function Catalyzes the oxidative deamination of biogenic and xenobiotic amines and

has important functions in the metabolism of neuroactive and vasoactive amines in the central nervous system and peripheral tissues. MAOB

preferentially degrades benzylamine and phenylethylamine.

Cellular Localization Mitochondrion outer membrane. Single-pass type IV membrane protein.

Cytoplasmic side.
