

Anti-MRGRD antibody

Description Unconjugated Rabbit polyclonal to MRGRD

Model STJ192666

Host Rabbit

Reactivity Human

Applications ELISA, WB

Gene ID <u>116512</u>

Gene Symbol MRGPRD

Dilution range WB 1:500-2000 ELISA 1:5000-20000

Specificity MRGRD Polyclonal Antibody detects endogenous levels of protein.

Purification MRGRD antibody was affinity-purified from rabbit antiserum by affinity-

chromatography using epitope-specific immunogen.

Note For Research Use Only (RUO).

Protein Name Mas-related G-protein coupled receptor member D Beta-alanine receptor G-

protein coupled receptor TGR7

Molecular Weight 35 kDa

Clonality Polyclonal

Conjugation Unconjugated

Isotype IgG

Formulation Liquid form in PBS containing 50% glycerol, and 0.02% sodium azide.

Concentration 1 mg/ml

Storage Instruction Store at -20°C, and avoid repeat freeze-thaw cycles.

Database Links <u>HGNC:29626OMIM:607231</u>

Alternative Names Mas-related G-protein coupled receptor member D Beta-alanine receptor G-

protein coupled receptor TGR7

Function May regulate nociceptor function and/or development, including the sensation

or modulation of pain. Functions as a specific membrane receptor for betaalanine. Beta-alanine at micromolar doses specifically evoked Ca(2+) influx in cells expressing the receptor. Beta-alanine decreases forskolin-stimulated cAMP production in cells expressing the receptor, suggesting that the receptor

couples with G-protein G(q) and G(i).

Cellular Localization Cell membrane. Localized at the plasma membrane but internalized into the

cytoplasm after treatment with beta-alanine.
