| <b>Dilution range</b>     | WB 1:500-1:2000IHC 1:100-1:300IP 1:200-500ELISA 1:10000                                                                                                                                                                      |
| <b>Specificity</b>        | ATF-2 Polyclonal Antibody detects endogenous levels of ATF-2 protein.                                                                                                                                                        |
| <b>Tissue Specificity</b> | Ubiquitously expressed, with more abundant expression in the brain.                                                                                                                                                          |
| <b>Purification</b>       | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.                                                                                                        |
