

## Anti-LRRK1 antibody

|                         |                                                                                                                       |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------|
| <b>Description</b>      | Rabbit polyclonal to LRRK1.                                                                                           |
| <b>Model</b>            | STJ93959                                                                                                              |
| <b>Host</b>             | Rabbit                                                                                                                |
| <b>Reactivity</b>       | Human                                                                                                                 |
| <b>Applications</b>     | ELISA, IF, IHC                                                                                                        |
| <b>Immunogen</b>        | Synthesized peptide derived from human LRRK1                                                                          |
| <b>Immunogen Region</b> | 330-410 aa, Internal                                                                                                  |
| <b>Gene ID</b>          | <a href="#">79705</a>                                                                                                 |
| <b>Gene Symbol</b>      | <a href="#">LRRK1</a>                                                                                                 |
| <b>Dilution range</b>   | IHC 1:100-1:300IF 1:200-1:1000ELISA 1:5000                                                                            |
| <b>Specificity</b>      | LRRK1 Polyclonal Antibody detects endogenous levels of LRRK1 protein.                                                 |
| <b>Purification</b>     | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |
| <b>Note</b>             | For Research Use Only (RUO).                                                                                          |
| <b>Protein Name</b>     | Leucine-rich repeat serine/threonine-protein kinase 1                                                                 |
| <b>Molecular Weight</b> | 227.843 kDa                                                                                                           |
| <b>Clonality</b>        | Polyclonal                                                                                                            |
| <b>Conjugation</b>      | Unconjugated                                                                                                          |
| <b>Isotype</b>          | IgG                                                                                                                   |

|                              |                                                                         |
|------------------------------|-------------------------------------------------------------------------|
| <b>Formulation</b>           | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. |
| <b>Concentration</b>         | 1 mg/ml                                                                 |
| <b>Storage Instruction</b>   | Store at -20°C, and avoid repeat freeze-thaw cycles.                    |
| <b>Database Links</b>        | <a href="#">HGNC:18608OMIM:610986</a>                                   |
| <b>Alternative Names</b>     | Leucine-rich repeat serine/threonine-protein kinase 1                   |
| <b>Cellular Localization</b> | Cytoplasm                                                               |
