| <b>Gene Symbol</b>        | <a href="#">SCAF1</a>                                                                                                                                                                                                                                  |
| <b>Dilution range</b>     | WB 1:500-1:2000ELISA 1:40000                                                                                                                                                                                                                           |
| <b>Specificity</b>        | SCAF1 Polyclonal Antibody detects endogenous levels of SCAF1 protein.                                                                                                                                                                                  |
| <b>Tissue Specificity</b> | Ubiquitous. Highly expressed in fetal brain and liver, poorly expressed in salivary gland, heart, skin and ovary. Expressed in colorectal carcinomas and ovarian cancers. Overexpressed in colorectal carcinomas as compared to normal colonic mucosa. |
| <b>Purification</b>       | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.                                                                                                                                  |
| <b>Note</b>               | For Research Use Only (RUO).                                                                                                                                                                                                                           |
| <b>Protein Name</b>       | Splicing factor, arginine/serine-rich 19 SR-related C-terminal domain-associated factor 1 SR-related and CTD-associated factor 1 SR-related-CTD-associated factor SCAF Serine arginine-rich pre-mRNA splicing factor SR-A1                             |

|                              |                                                                                                                                                                                                                            |
|------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Molecular Weight</b>      | 140 kDa                                                                                                                                                                                                                    |
| <b>Clonality</b>             | Polyclonal                                                                                                                                                                                                                 |
| <b>Conjugation</b>           | Unconjugated                                                                                                                                                                                                               |
| <b>Isotype</b>               | IgG                                                                                                                                                                                                                        |
| <b>Formulation</b>           | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                                                                                                                    |
| <b>Concentration</b>         | 1 mg/ml                                                                                                                                                                                                                    |
| <b>Storage Instruction</b>   | Store at -20°C, and avoid repeat freeze-thaw cycles.                                                                                                                                                                       |
| <b>Database Links</b>        | <a href="#">HGNC:30403OMIM:617264</a>                                                                                                                                                                                      |
| <b>Alternative Names</b>     | Splicing factor, arginine/serine-rich 19 SR-related C-terminal domain-associated factor 1 SR-related and CTD-associated factor 1 SR-related-CTD-associated factor SCAF Serine arginine-rich pre-mRNA splicing factor SR-A1 |
| <b>Function</b>              | May function in pre-mRNA splicing.                                                                                                                                                                                         |
| <b>Cellular Localization</b> | Nucleus                                                                                                                                                                                                                    |
