

## Anti-TRIM59 antibody

|                         |                                                                                                                       |
|-------------------------|-----------------------------------------------------------------------------------------------------------------------|
| <b>Description</b>      | Rabbit polyclonal to TRIM59.                                                                                          |
| <b>Model</b>            | STJ96102                                                                                                              |
| <b>Host</b>             | Rabbit                                                                                                                |
| <b>Reactivity</b>       | Human, Mouse                                                                                                          |
| <b>Applications</b>     | ELISA, IF, IHC, WB                                                                                                    |
| <b>Immunogen</b>        | Synthesized peptide derived from human TRIM59                                                                         |
| <b>Immunogen Region</b> | 160-240 aa, Internal                                                                                                  |
| <b>Gene ID</b>          | <a href="#">286827</a>                                                                                                |
| <b>Gene Symbol</b>      | <a href="#">TRIM59</a>                                                                                                |
| <b>Dilution range</b>   | WB 1:500-1:2000IHC 1:100-1:300IF 1:200-1:1000ELISA 1:40000                                                            |
| <b>Specificity</b>      | TRIM59 Polyclonal Antibody detects endogenous levels of TRIM59 protein.                                               |
| <b>Purification</b>     | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |
| <b>Note</b>             | For Research Use Only (RUO).                                                                                          |
| <b>Protein Name</b>     | Tripartite motif-containing protein 59 RING finger protein 104 Tumor suppressor TSBF-1                                |
| <b>Molecular Weight</b> | 47 kDa                                                                                                                |
| <b>Clonality</b>        | Polyclonal                                                                                                            |
| <b>Conjugation</b>      | Unconjugated                                                                                                          |

|                              |                                                                                        |
|------------------------------|----------------------------------------------------------------------------------------|
| <b>Isotype</b>               | IgG                                                                                    |
| <b>Formulation</b>           | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                |
| <b>Concentration</b>         | 1 mg/ml                                                                                |
| <b>Storage Instruction</b>   | Store at -20°C, and avoid repeat freeze-thaw cycles.                                   |
| <b>Database Links</b>        | <a href="#">HGNC:30834OMIM:616148</a>                                                  |
| <b>Alternative Names</b>     | Tripartite motif-containing protein 59 RING finger protein 104 Tumor suppressor TSBF-1 |
| <b>Function</b>              | May serve as a multifunctional regulator for innate immune signaling pathways.         |
| <b>Cellular Localization</b> | Endoplasmic reticulum membrane                                                         |
