

## Anti-USP24 antibody

---

|                         |                                                                                                                                            |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Description</b>      | Rabbit polyclonal to USP24.                                                                                                                |
| <b>Model</b>            | STJ96198                                                                                                                                   |
| <b>Host</b>             | Rabbit                                                                                                                                     |
| <b>Reactivity</b>       | Human, Mouse                                                                                                                               |
| <b>Applications</b>     | ELISA, IHC                                                                                                                                 |
| <b>Immunogen</b>        | Synthesized peptide derived from human USP24                                                                                               |
| <b>Immunogen Region</b> | 40-120 aa, N-terminal                                                                                                                      |
| <b>Gene ID</b>          | <a href="#">23358</a>                                                                                                                      |
| <b>Gene Symbol</b>      | <a href="#">USP24</a>                                                                                                                      |
| <b>Dilution range</b>   | IHC 1:100-1:300ELISA 1:10000                                                                                                               |
| <b>Specificity</b>      | USP24 Polyclonal Antibody detects endogenous levels of USP24 protein.                                                                      |
| <b>Purification</b>     | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.                      |
| <b>Note</b>             | For Research Use Only (RUO).                                                                                                               |
| <b>Protein Name</b>     | Ubiquitin carboxyl-terminal hydrolase 24 Deubiquitinating enzyme 24<br>Ubiquitin thioesterase 24 Ubiquitin-specific-processing protease 24 |
| <b>Molecular Weight</b> | 211.069 kDa                                                                                                                                |
| <b>Clonality</b>        | Polyclonal                                                                                                                                 |
| <b>Conjugation</b>      | Unconjugated                                                                                                                               |

|                            |                                                                                                                                                            |
|----------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Isotype</b>             | IgG                                                                                                                                                        |
| <b>Formulation</b>         | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                                                                    |
| <b>Concentration</b>       | 1 mg/ml                                                                                                                                                    |
| <b>Storage Instruction</b> | Store at -20°C, and avoid repeat freeze-thaw cycles.                                                                                                       |
| <b>Database Links</b>      | <a href="#">HGNC:12623</a> <a href="#">OMIM:610569</a>                                                                                                     |
| <b>Alternative Names</b>   | Ubiquitin carboxyl-terminal hydrolase 24 Deubiquitinating enzyme 24<br>Ubiquitin thioesterase 24 Ubiquitin-specific-processing protease 24                 |
| <b>Function</b>            | Protease that can remove conjugated ubiquitin from target proteins and polyubiquitin chains. Deubiquitinates DDB2, preventing its proteasomal degradation. |
