

## Mouse Anti-Chicken IgY antibody (HRP)

---

|                            |                                                                         |
|----------------------------|-------------------------------------------------------------------------|
| <b>Description</b>         | HRP conjugated Mouse monoclonal to Chicken IgY                          |
| <b>Model</b>               | STJ99533                                                                |
| <b>Host</b>                | Mouse                                                                   |
| <b>Reactivity</b>          | Avian                                                                   |
| <b>Applications</b>        | ELISA, IF, IHC, WB                                                      |
| <b>Immunogen</b>           | IgY                                                                     |
| <b>Dilution range</b>      | WB 1: 5000-20000ELISA 1: 10000-20000                                    |
| <b>Note</b>                | For Research Use Only (RUO).                                            |
| <b>Protein Name</b>        | Mouse Chicken IgY (HRP)                                                 |
| <b>Clonality</b>           | Monoclonal                                                              |
| <b>Conjugation</b>         | HRP                                                                     |
| <b>Formulation</b>         | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide. |
| <b>Concentration</b>       | 4 mg/ml                                                                 |
| <b>Storage Instruction</b> | Store in fridge at +4°C. Freezing not recommended.                      |
| <b>Alternative Names</b>   | Mouse Chicken IgY (HRP)                                                 |
