

## Breviscapin

## Chemical Properties

CAS No. : 116122-36-2

Formula:

Molecular Weight:

Appearance: no data available

Storage: Powder: -20°C for 3 years | In solvent: -80°C for 1 year

## Breviscapin

## Biological Description

|               |                                                                                                                                                                  |
|---------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Description   | Breviscapin (Scutellarin) is the total flavonoid components (the content of scutellarin > or =85%) extracted from the dried whole plant of Erigeron breviscapus. |
| Targets(IC50) | Others                                                                                                                                                           |

## Solubility Information

|            |                                                                                                            |
|------------|------------------------------------------------------------------------------------------------------------|
| Solubility | DMSO: >5 mM, Sonication is recommended.<br>(< 1 mg/ml refers to the product slightly soluble or insoluble) |
|------------|------------------------------------------------------------------------------------------------------------|
